Hiring Team
Halden

Re: Senior Product Designer

Dear Hiring Team,

I'm writing to apply for the Senior Product Designer role. Halden's focus on tools that operations teams use all day is exactly the work I've spent the last seven years on, and the problem in your posting, dense information that still has to feel fast, is the one I enjoy most.

At Fernway I led the redesign of our scheduling product. We started from support tickets rather than screens, and the new flow cut booking from nine steps to four. Just as important, I built the design system that let four teams ship that quality without waiting on me.

I'd bring the same habits to Halden: research close to the work, small releases, and a system that makes the next screen easier than the last. I would welcome the chance to walk you through the scheduling project.

Kind regards,
Ana Novak
